Capabilities & Equipment.....	pg 13
Product Specifications.....	pg 14
Warranty Information.....	pg 15
Ordering Information.....	pg 16

We have been in the padding business for over 30 years and operating in Idaho for over 20 years.

Idaho Sewing has grown up right along side of the ski area industry. We know what works and what doesn't. We know how to address the cold crack, UVR's, abrasion and the severe conditions which the ski industry has to contend with. From weather and people to the ongoing seasonal budget issues that you have to deal with, Idaho Sewing for Sports understands the challenges you face everyday.

There is no substitute for that knowledge and insight, and when combined with our expertise in the field of padding, you know that we bring a high level of value to every product used in the field.

In 1998, we started a project designing and producing Leitner-Poma's seat pads for all of their new lifts. We make seats to fit all lifts, including Doppelmayr Ctec. If you are getting a new lift in the future, just let us know. We give special discounts to those who want our seat pads on their new lift.

We have built this business on a strong foundation of honesty and integrity, always adhering to the highest quality of service, materials, workmanship and constantly striving to keep our prices fair and reasonable.

Thank you for allowing us to serve you.
