Tan vinyl side
for summer

Black side for
winter.

DO YOU OFFER SUMMER ACTIVITIES?
Do your customers complain about how HOT the seats get in the summer sun?
Keep them cooler, even in the summer heat!

TWO TONE SEAT PADS

One side is made with an 18 oz. tan vinyl material that stays cool in the summer heat. The other side is made from your choice of our exclusive linen embossed or I-S Tex materials. These have become more and more popular each year. Once again, our customers get what they ask for!

Idaho Sewing For Sports, Inc. is a U.S.A. manufacturer of all types of padding, especially for ALL BRANDS of chairlifts.

When it comes to a proper fit for your chair lift seat pad, remember that one size or design does not fit all. For example, a Yan double will not fit a Poma correctly. That's why we do not stock seat pads. We want to be certain that every chair lift gets a seat pad that fits, ensuring your satisfaction.

Of the hundreds of patterns we stock for all the varied seat pad configurations, we're sure to have a design to fit your lift correctly. If we do not, we will design a custom seat pad pattern for your lift, FREE OF CHARGE!

What customers are saying about our SEAT PADS

"As usual, it has been a pleasure doing business with your company. I can't say enough about the great products and world class service that you provide. The chair pads look terrific!"

Troy Hermansky, Stratton Mountain Resort
