New Tube Cover Design DOUBLE LAYER TUBE BOTTOM
 We've been working on ways to improve the durability of our tube covers.

1. We added a 1/2" closed cell foam insert into the bottom of the tube cover.
2. We enclosed this foam to help keep the water out.
3. Now you don't need the pocket for the ring!
Just toss it inside.
4. Ice and snow will not have as big of an effect on the bottom material.
5. We have also increased the tear strength on the bottom material to help with wear and tear.
6. Double Layer Tube Bottom available in Adult Tube Cover only.

Stock Colors*: Red, Blue, Yellow, Green, Orange.

*Other colors are available for an additional charge.
